Donald Trump has no record of public service and no qualifications for public office. He traffics in conspiracy theories and perpetuated the racist "Birthier" stories to de-legitimize America's first black president. Trump is appallingly sexist; he is erratic, secretive, and xenophobic.

Trump would sand blast into oblivion the words on the bottom of the Statue of Liberty which welcomed MY Grandmother and Grandfather into America. Trump expresses admiration for authoritarian rulers like Putin, and shows authoritarian tendencies himself. He is a Demagogue and a clear and present danger to American Democracy.

Trump is easily goaded, a poor quality for someone seeking control of America's nuclear arsenal. He is an enemy of fact-based discussion; he is ignorant of, and indifferent to, the Constitution; he appears not to have read it, or in fact--anything. Trump should never be considered for the Presidency of the United States -- NEVER!
